# JURISDICTION

(Pursuant to Rule XXV, Sec. 2, Standing Rules of the Senate)

The Senate Committee on Environment and Public Works is one of sixteen standing committees established by Rule XXV of the Senate, under which committee jurisdictions were last revised by the adoption of S. Res. 4, Senate Committee Reorganization, February 11, 1977.

Section 2 of Rule XXV as amended on January 5, 1981 provides that the Committee shall consist of sixteen Senators.

The pertinent section of Senate Rule XXV follows:

(h)(1) Committee on Environment and Public Works, to which shall be referred all proposed legislation, messages, petitions, memorials, and other matters relating to the following subjects:

1. Air pollution.
2. Construction and maintenance of highways.
3. Environmental aspects of outer continental shelf lands.
4. Environmental effects of toxic substances, other than pesticides.
5. Environmental policy.
6. Environmental research and development.
7. Fisheries and wildlife.
8. Flood control and improvement of rivers and harbors, including environmental aspects of deepwater ports.
9. Noise pollution.
10. Nonmilitary environmental regulation and control of nuclear energy.
11. Ocean dumping.
12. Public buildings and improved grounds for the United States generally, including Federal buildings in the District of Columbia.
13. Public works, bridges, and dams.
14. Regional economic development.
15. Solid waste disposal and recycling.
16. Water pollution.
17. Water resources.

(2) Such committee shall also study and review, on a comprehensive basis, matters relating to environmental protection and resource utilization and conservation, and report thereon from time to time.

# RULES OF PROCEDURE OF THE COMMITTEE

Rule 1. *Regular Meeting Days.*—The regular meeting day of the committee shall be the first and third Thursday of each month at 10:00 A.M., except that if there be no business before the committee, the regular meeting shall be omitted.

Rule 2. *Committee Meetings.*—Subject to section 133(a) of the Legislative Reorganization Act of 1946, as amended, committee meetings for the conduct of business, for the purpose of holding hearings, or for any other purpose, shall be called by the chairman, after consultation with the ranking minority member. Subcommittee meetings shall be called by the chairman of the respective subcommittee, after consultation with the ranking minority member. Notice of a meeting and the agenda of business to be discussed by the committee will be provided to all members not less than twenty-four hours in advance of such meeting. Additions to the agenda after that time may be made with the concurrence of the ranking minority member. Such 24-hour notice may be waived in an emergency by the chairman, with the concurrence of the ranking minority member.

Rule 3. *Open Committee Meetings and Legislative Mark-up Sessions.*—Meetings of the committee, including hearings and legislative mark-ups, shall be open to the public, except that a portion or portions of any such meeting may be closed to the public if the committee determines by record vote of a majority of the members of the committee present that the matters to be discussed or the testimony to be taken at such portion or portions—

(1) will disclose matters necessary to be kept secret in the interests of national defense or the confidential conduct of the foreign relations of the United States;

(2) will relate solely to matters of committee staff personnel or internal staff management or procedure; or

(3) constitute any other grounds for closure under paragraph 5(b) of rule XXVI of the Standing Rules of the Senate (as amended by Senate Resolution 9, 94th Congress).

Rule 4. *Presiding Officer.*—(a) The chairman shall preside at all meetings and hearings of the committee except that in the absence of the chairman the ranking majority member who is present at the meeting shall preside.

(b) Subcommittee chairmen shall preside at all meetings and hearings of their respective subcommittees, except that in the absence of the subcommittee chairman, the ranking majority member of the subcommittee who is present at the meeting shall preside.

(c) Notwithstanding the rule prescribed by subsections (a) and (b), any member of the committee may preside over the conduct of a hearing.

Rule 5. *Quorums.*—(a) Except as provided in subsections (b) and (d), five members, two of whom shall be members of the minority party, shall constitute a quorum for the conduct of business, except for the purpose of reporting any measure or matter.

(b) Quorums for the conduct of business by the subcommittees shall be a simple majority of the membership of the subcommittees with at least one minority member present.

(c) Once a quorum as prescribed in subsections (a) and (b) has been established for the conduct of business, the committee may continue to conduct business.

(d) Notwithstanding the rule prescribed in subsection (a), one member shall constitute a quorum for the purpose of conducting a hearing.

Rule 6. *Proxy Voting.*—(a) Proxy voting shall be allowed on all measures, amendments, resolutions, or any other issue before the committee or any subcommittees. Any member who is unable to attend the meeting may submit a vote on any such issue, in writing or through personal instructions; however, proxies shall not be voted for the purpose of reporting any measure or matter except when the absent committee member has been informed of the matter on which the vote is being recorded and has affirmatively requested that such vote be so recorded. A proxy given in writing shall be valid until revoked, while a proxy given orally or by personal instructions is valid only on the day given.

(b) At the discretion of the chairman, after consultation with the ranking minority member, members who are unable to be present and whose vote has not been cast by proxy may have their positions recorded on any vote on the same business day so long as the vote will not change the outcome.

Rule 7. *Public Announcement of Vote.*—Whenever the committee, by rollcall vote, reports any measure or matter, or acts upon any measure or amendments thereto, the report of the committee on such measure or matter shall include a tabulation of the votes cast in favor of and the votes cast in opposition to such measure or matter by each member of the committee.

Rule 8. *Announcement of Hearing.*—The committee, or any subcommittee thereof, shall make public announcement and provide notice to members of the date, place, time, and subject matter of any hearings to be conducted on any measure or matter, at least one week in advance of such hearing, unless the committee chairman, or subcommittee

chairman, with the concurrence of the ranking minority member, determines that there is good cause to begin such hearing at an earlier date, in which event not less than twenty-four hours notice shall be given.

Rule 9. *Statements of Witnesses at Hearings.*—(a) Each witness who is scheduled to testify at any hearing of the committee, or any subcommittee thereof, shall file a written statement of proposed testimony not later than noon of the last business day preceeding the day on which such witness is scheduled to appear. At the time of appearance, each witness shall supply for the use of the committee or subcommittee, 25 copies of any prepared testimony or such greater number as may be requested in the letter of invitation. Except for witnesses from the Federal Government, this rule may be waived with regard to field hearings.

(b) The presiding officer at a hearing may have a witness confine any oral presentation to a summary of a written statement.

Rule 10. *Regularly Established Subcommittees.*—The committee shall have five regularly established Subcommittees as follows:

Subcommittee on Environmental Protection
Subcommittee on Nuclear Regulation
Subcommittee on Water Resources, Transportation, and Infrastructure
Subcommittee on Hazardous Wastes and Toxic Substances
Subcommittee on Superfund and Environmental Oversight

Rule 11. *Subcommittee Membership.*—Following consultation with the Majority Members and the Ranking Minority Member of the Committee, the chairman shall announce selections for membership of the subcommittees referred to in Rule 10.

Rule 12. *Environmental Impact Statements.*—No project or legislation proposed by the Administration shall be approved or other action taken on such project or legislation unless the committee has received a final environmental impact statement relative to it, in accordance with section 102(2)(C) of the National Environmental Policy Act of 1970, and the written comments of the Administrator of the Environmental Protection Agency, in accordance with section 309 of the Clean Air Act. This rule is not intended to broaden, narrow, or otherwise modify the class of projects or legislative proposals for which environmental impact statements are required under section 102(2)(C).

Rule 13. *Project Approvals.*—(a) Whenever the committee authorizes a project, under Public Law 89-298, Rivers and Harbors Act of 1965, Public Law 83-566, Watershed Protection and Flood Prevention Act, or Public Law 86-249, Public Buildings Act of 1959, as amended, the chairman shall submit for printing in the Congressional Record, and the Committee shall publish periodically as a committee print, a report that describes the project and the reasons for its approval, together with any dissenting or individual views.

(b) Proponents of committee resolutions shall submit appropriate evidence showing need for review or reports on river and harbor and flood control projects.

Rule 14. *Naming of Public Facilities.*—No building, structure or facility authorized by the committee, shall be named for any living person, except former Presidents or former Vice Presidents of the United States, former Members of Congress over 70 years of age, or former Justices of the Unites States Supereme Court over 70 years of age.

Rule 15. *Building Prospectuses.*— (a) The committee shall act on all prospectuses for construction (including construction of buildings for lease by the government), alteration and repair, or acquisition submitted by the General Services Administration in accordance with section 7(a) of the Public Buildings Act of 1959, as amended, and such action shall be completed by the date of May 15 during the same session in which such prospectuses are submitted to Congress. The committee may consider prospectuses submitted for alterations or repairs necessitated by emergency building conditions at any time during the same session of the Congress in which they are submitted. Prospectuses rejected by majority vote of the committee or not contained in any bill reported to the Senate shall be returned to the GSA and must then be resubmitted in order to be considered for action by the committee during the next session of the Congress.

(b) Reports of building project surveys submitted by the General Services Administration to the committee under section 11(b) of the Public Buildings Act of 1959, as amended, shall not be considered by the committee as being prospectuses subject to approval by committee resolution in accordance with section 7(a) of that Act. Projects described in such survey reports shall be considered for committee action only if they are submitted as prospectuses in accordance with section 7(a) and they shall be subject to the provisions of subsection (a) of this rule.

Rule 16. *Broadcasting of Hearings.*—Public hearings of the committee, or any subcommittee thereof, may be televised or broadcast, or recorded for television or broadcast, upon notification in advance to the chairman through the chief clerk. During public hearings, photographers and other reporters using mechanical recording or filming devices shall position and use their equipment in such fashion as will not interfere with the seating, vision, or hearing of Committee Members or staff on the dais, nor with the orderly process of the hearing.

Rule 17. *Amendment of Rules.*—The rules may be added to, modified, amended, or suspended by a majority of the Committee Membership.

# HISTORY AND WORK OF THE COMMITTEE

The Committee on Environment and Public Works is one of 16 standing committtees of the United States Senate. The work of the Committee brings together elements of national policy providing developmental opportunitics and those providing for environmental protection. Over the last two decades, it has encompassed major environmental initiatives as well as basic infrastructure development.

Although the Senate created the Public Buildings and Grounds Committee in 1837, the present Committee structure of the Congress was established in 1946. Federal-aid highway systems, flood control and navigation projects, and construction of Federal buildings were the original areas of jurisdiction of the Senate Committee on Public Works. Beginning in 1963, water and air pollution control, rural and community economic development, and relief of natural disasters became important areas of the committee's activity.

The landmark Clean Air Act of 1970, and the Federal Water Pollution Control Act of 1972, brought the committee recognition as the jurisdictional home of environmental pollution control. In 1977 the Senate transferred fish and wildlife refuges and programs, and the regulation of nonmilitary nuclear power to the committee, now designated "Environment and Public Works."

The committee's environmental responsibility also includes the Resource Conservation and Recovery Act (RCRA) governing disposal of solid waste, Superfund (CERCLA), the Toxic Substances Control Act (TSCA), the Safe Drinking Water Act, ocean dumping, and the National Environmental Policy Act (NEPA).

Committee oversight extends to programs in five cabinet-level departments and seven independent agencies, including the Environmental Protection Agency, the Council on Environment Quality, the Federal Highway Administration (DOT), the Economic Development Administration (DOC), the Tennessee Valley Authority, the Appalachian Regional Commission, the Fish and Wildlife Service (DOI), the Nuclear Regulatory Commission, the Public Buildings Service (GSA), the Federal Emergency Management Agency, the Soil Conservation Service (USDA), and the non-performing arts functions of the Kennedy Center.

Recent public interest in the committee's activities has focused on the prevention of acid rain, the protection of endangered species and barrier islands, and the repair of bridges and maintenance of Federal-aid highways, including completion of the Interstate System.
